

Don's story.

Don needed to sell his house **quickly** as he wanted to start enjoying his retirement. He had tried to sell the normal way, however because the house had a tenant in, this was proving very difficult. His life and plans were on **HOLD**.

Don responded to one of our adverts and decided to call us up. We talked Don through all his options and listened to what he had to say. A price was agreed and a date set for completion.

This allowed Don to start planning ahead immediately! He now had a serious buyer for his house and not long after the money from the sale was in his bank account.

Like most people Don was worried about making the call. But he had reached the stage where he needed to take action. The situation had gone on too long.

You could be facing any number of problems which mean you would like a quick cash sale. Please contact us now!!!!!!!!!!!!!!
